WV	West Virginia	X03	X03	L	X03	X03		X03	X03	L00	X03							West Virginia, through the WV Fire Commission, has the regulatory authority to adopt the state's building and fire codes. The Commission has adopted statewide the 2003 editions of IBC, IRC, IMC, IFGC, IPC, IEBC and IECC for any jurisdiction that chooses to enforce building codes. The 2006 I-codes are recognized, but have not been officially adopted. The State Fire Commission passed a resolution in April of 2008 to encourage all counties and municipalities to utilize the 2006 I-Codes. The IPMC also has been adopted statewide but enforcement is optional. As the Fire Code, the Fire Commission has adopted the entire collection of the NFPA codes and standards excepting NFPA 5000 and NFPA 900 and NFPA 101A. The WV Fire code applies to both new and existing construction and whenever there is a conflict between the State Building Code (Title 87 Series 5b) and the State Fire Code (Title 87 Series1), the fire code takes precedence.
